Blocks VegBank - Bug #1221: Systematic solution to querying data	**Resolved**	**11/21/2003**

History

#1 - 01/14/2003 03:06 PM - Michael Lee

This is a really nice feature that we'd like to have, but it doesn't seem very
high priority to me. Once we get gobs of projects, this will be nearly essential.

#2 - 10/27/2004 03:59 PM - Michael Lee

summary view is complete. Now need search tool. MetaSearch will suffice for a
while.

#3 - 02/10/2005 04:45 PM - Michael Lee

add geographical range, people who contributed, add sorting (dates), plot counts.

#4 - 03/10/2005 08:02 PM - Michael Lee

plot counts and people and places are added. Sorting still not implemented
(vegbank:pager makes this one challenging)

#5 - 04/07/2005 11:14 PM - Michael Lee

http://aldo.vegbank.org/get/summary/project/

This is a new part of the vegbank:get tag. We could close this bug by adding
the URLChanger to that page. And by adding a metasearch link that only searches
for projects that could be embedded at the top of this page.

#6 - 04/21/2005 09:22 AM - Michael Lee

sorting is now allowed. Moving this bug to later priority when searching on all
views will be needed.

#7 - 05/24/2005 02:37 PM - Michael Lee

Project view now does all that is requested here, except for part that is listed
separately in bug 2064.
