Description

NRS data submission forms comply with EML2.0.0beta6. Need to update this to comply with EML 2.0.0. Probably should wait until after Morpho supports EML 2 because Morpho is used to review and moderate submissions. Will need to convert old beta6 entries to EML 2.0.0 format when ready.

Will be converting submission scricpt to output EML2.0.0 instead of EML2.0.0beta6. For this the specification of EML2.0.0 and stylesheet coded by DAN for converting EML2.0.0beta6 to EML2.0.0 will be consulted.

#2 - 01/06/2004 01:47 PM - Saurabh Garg

The submission script now uses EML 2.0.0
