

## Morpho - Bug #942

### wrong icon appears for data in package from metacat

01/10/2003 10:07 AM - Dan Higgins

<b>Description</b>			
<p>An icon appears in the first column of a result set that indicates whether or not the data set contains data+metadata or just metadata. If you create a package local with data and then synchronize to metacat, the icon indicates that there is no date, although data is clearly displayed in the data table.</p> <p>For some unknown reason, the information from metacat seems to indicate that there is no data, even though it is apparently there. Test seems to be based on presence of 'isDataFileFor' string in triples.</p>

Is duplicate of Morpho - Bug #1241: Search Results Data/Nodata icons not work...		<b>Resolved</b>	<b>12/24/2003</b>

### History

#### #1 - 12/15/2004 03:10 PM - Andrea Andrea

I was unable to reproduce this bug with version 1.5.1.

#### #2 - 12/15/2004 03:20 PM - Andrea Andrea

- Bug 1241 has been marked as a duplicate of this bug. \*\*\*

#### #3 - 01/17/2013 02:35 PM - ben leinfelder

Modern versions of EML (2.0.1-2.1.1) do not use this multiple-file/triples business for packaging. Closing this.
