<b>Description</b>			
This is a bucket for issues relating to the EcoArt data.			
-----			
In the alliance description field, there is some special syntax around scientific names "~Scientific Name/\$" ... do we store as is. What about presentation? Should these characters be mapped into quotes or italicize the text between the special characters ???			
e.g. This alliance includes planted stands of ~Pinus virginiana\\$ with little .... etc.			
-----			
CAVE and COMPLEX rows for all the community levels exist. They are being incorrectly handled by the code right now and no specifications exist as to how to handle them correctly.

These bugs need to be closed

#### #3 - 02/14/2003 08:06 PM - Gabriel Farrell

I said they need to be closed

#### #4 - 01/31/2005 02:54 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.
