

## Kepler - Issues

| #    | Tracker | Status   | Priority  | Subject                                                                                                                                                                                                      | Assignee         | Updated             |
|------|---------|----------|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|---------------------|
| 5200 | Bug     | Resolved | Normal    | WorkflowRun and Reporting artifacts no longer put into run-kars                                                                                                                                              | Derik Barseghian | 11/03/2010 04:29 PM |
| 5312 | Bug     | Resolved | Normal    | updating windowsXP installed 2.0.0 straight to 2.2.0 renders Kepler unable to start                                                                                                                          | David Welker     | 02/22/2011 01:23 PM |
| 5420 | Bug     | Resolved | Normal    | Two types of NPE issues when 2.2.0 installed and run by a non-admin windows user                                                                                                                             | David Welker     | 06/13/2011 12:57 PM |
| 5231 | Bug     | Resolved | Normal    | Tools => Preferences menu item gives error on trunk                                                                                                                                                          | Derik Barseghian | 10/28/2010 01:15 PM |
| 5215 | Bug     | Resolved | Normal    | tags from a new ontology created within Tag Manager don't show up in Tagging drop-down                                                                                                                       | Sean Riddle      | 10/27/2010 10:44 AM |
| 5136 | Bug     | Resolved | Normal    | semantic type checker always returns error                                                                                                                                                                   | Sean Riddle      | 12/09/2010 09:24 AM |
| 5098 | Bug     | Resolved | Normal    | Save Archive (KAR)... will have exception when internet is not accessible.                                                                                                                                   | Chad Berkley     | 04/11/2011 09:54 PM |
| 5089 | Bug     | Resolved | Normal    | Replace operating system specific files with operating system specific modules.                                                                                                                              | David Welker     | 07/22/2010 08:59 PM |
| 5144 | Bug     | Resolved | Immediate | renaming an actor does not persist in saved kar files                                                                                                                                                        | Aaron Aaron      | 12/10/2010 11:57 AM |
| 5396 | Bug     | Resolved | Normal    | rename ptolomy-8.1.0 module for the kepler 2.2 release                                                                                                                                                       | David Welker     | 05/25/2011 04:44 PM |
| 5277 | Bug     | Resolved | Normal    | remove test servers from Sources preferences                                                                                                                                                                 | Derik Barseghian | 01/28/2011 02:00 PM |
| 5233 | Bug     | Resolved | Normal    | Remote component search messes up returns which have the same karFileName in kar xml                                                                                                                         | Jing Tao         | 11/03/2010 05:58 PM |
| 4324 | Bug     | Resolved | Normal    | ptll/module-info/revision.txt not being updated                                                                                                                                                              | Sean Riddle      | 01/24/2011 10:29 AM |
| 5219 | Bug     | Resolved | Normal    | problems when semantically annotating or tagging a composite actor                                                                                                                                           | Sean Riddle      | 01/14/2011 02:56 PM |
| 5225 | Bug     | Resolved | Normal    | problems loading & saving KARs when disconnected                                                                                                                                                             | Chad Berkley     | 11/01/2010 10:44 AM |
| 5166 | Bug     | Resolved | Normal    | Patch Kepler 2.0.0 so that the module manager can switch from Kepler-2.2.0 to Kepler-2.0.0 or Kepler-2.0.1                                                                                                   | David Welker     | 12/01/2010 02:55 PM |
| 5193 | Bug     | Resolved | Normal    | Open menu items should be merged into one                                                                                                                                                                    | David Welker     | 12/10/2010 11:25 PM |
| 5093 | Bug     | Resolved | Normal    | module manager can leave kepler in broken or unexpected states                                                                                                                                               | David Welker     | 10/28/2010 06:42 AM |
| 5146 | Bug     | Resolved | Immediate | modifying and saving the composite sinewave actor fails                                                                                                                                                      | Derik Barseghian | 01/05/2011 04:39 PM |
| 5127 | Bug     | Resolved | Normal    | Make a good way to publish a suite without changing a bunch of modules.txt files                                                                                                                             | David Welker     | 12/07/2010 06:29 PM |
| 5228 | Bug     | Resolved | Normal    | Load splash screen and icons from the classpath, not specific modules.                                                                                                                                       | David Welker     | 12/01/2010 02:46 PM |
| 5097 | Bug     | Resolved | Normal    | kepler.sh accepts a limited number of arguments                                                                                                                                                              | jianwu jianwu    | 08/05/2010 03:52 PM |
| 5204 | Bug     | Resolved | Normal    | kepler application menus on each kepler window instead of in mac menu bar                                                                                                                                    | David Welker     | 12/01/2010 06:22 PM |
| 5346 | Bug     | Resolved | Normal    | Kepler 2.2r3 Mac OS 64-bit Matlab demo fails with 'no suitable image found'                                                                                                                                  | David Welker     | 05/18/2011 04:55 PM |
| 5065 | Bug     | Resolved | Normal    | In shared or administrative installations, the ability to store modules.txt and extra modules locally. This way, the module manager will work smoothly on Windows without having to run as an administrator. | David Welker     | 09/01/2010 01:02 AM |
| 5073 | Bug     | Resolved | Normal    | In module manager, display the current suite name as well as a fully resolved list of modules.                                                                                                               | David Welker     | 09/05/2010 10:15 PM |
| 5191 | Bug     | Resolved | Normal    | GUI improvements to Save As                                                                                                                                                                                  | Derik Barseghian | 01/05/2011 11:31 PM |
| 5074 | Bug     | Resolved | Normal    | Fix the release process so modules can be released from Windows machines.                                                                                                                                    | David Welker     | 09/09/2010 09:47 PM |
| 5167 | Bug     | Resolved | Normal    | Fix bug so that the correct modules.txt is always used.                                                                                                                                                      | David Welker     | 12/01/2010 03:44 PM |
| 5227 | Bug     | Resolved | Normal    | Finish work on installers.                                                                                                                                                                                   | David Welker     | 11/29/2010 02:54 PM |

| #    | Tracker | Status   | Priority  | Subject                                                                                                                                | Assignee         | Updated             |
|------|---------|----------|-----------|----------------------------------------------------------------------------------------------------------------------------------------|------------------|---------------------|
| 5263 | Bug     | Resolved | Immediate | failure to restart after upgrade from 2.0 to 2.1                                                                                       | David Welker     | 01/19/2011 01:08 PM |
| 5331 | Bug     | Resolved | Normal    | Errors in Help->Kepler Documentation page at kepler 2.2 rc3.                                                                           | David Welker     | 03/01/2011 04:28 PM |
| 4191 | Bug     | Resolved | Normal    | Eclipse build is slow the first time "Copying resources to the output folder"                                                          | jianwu jianwu    | 08/09/2010 03:29 PM |
| 5082 | Bug     | Resolved | Normal    | Eclipse build fails because of invalid archive                                                                                         | jianwu jianwu    | 08/05/2010 04:27 PM |
| 5248 | Bug     | Resolved | Normal    | downloading non-public kars from Search Components doesn't work                                                                        | Derik Barseghian | 01/31/2011 06:20 PM |
| 5237 | Bug     | Resolved | Normal    | Downloading kars on os X 10.6 locks Kepler                                                                                             | Chad Berkley     | 11/10/2010 02:14 PM |
| 5282 | Bug     | Resolved | Normal    | Documentation updates for 2.2                                                                                                          | David Welker     | 01/31/2011 01:07 PM |
| 5157 | Bug     | Resolved | Normal    | Devise approach for when patching should occur when changes occur via the module-manager.                                              | David Welker     | 09/08/2010 03:25 PM |
| 5212 | Bug     | Resolved | Normal    | deselecting ontologies in Tag Manager doesn't remove tags from Tagging drop-down                                                       | Sean Riddle      | 10/27/2010 10:42 AM |
| 5101 | Bug     | Resolved | Normal    | Composite Actor windows show wrong title after workflow Rename                                                                         | Aaron Aaron      | 01/04/2011 11:53 PM |
| 5070 | Bug     | Resolved | Normal    | Changing the "Available Modules" tab in the Module Manager to "Available Suites and Modules"                                           | David Welker     | 08/11/2010 12:59 PM |
| 5161 | Bug     | Resolved | Normal    | can't always use Module Manager to change to an older patch of a suite                                                                 | David Welker     | 09/15/2010 11:57 PM |
| 5352 | Bug     | Resolved | Normal    | build-area-2.1 is not working and build-area-2.2 is needed for kepler-2.2 release.                                                     | David Welker     | 05/24/2011 04:57 PM |
| 5084 | Bug     | Resolved | Normal    | Allow test releases in the same location as actual releases.                                                                           | David Welker     | 09/20/2010 11:18 PM |
| 5125 | Bug     | Resolved | Normal    | Add feature to do a one-step revert of a botched update from outside of Kepler                                                         | David Welker     | 09/09/2010 02:02 AM |
| 5190 | Bug     | Resolved | Normal    | 6.0WorkingWithDatasets describes OPeNDAP but not DataTurbine actor                                                                     | Derik Barseghian | 01/11/2011 02:00 PM |
| 5334 | Bug     | Resolved | Normal    | 2.2 rc3: kepler.sh file is not executable by default in Kepler.app/Contents/Resources/Java/ directory                                  | David Welker     | 03/01/2011 05:21 PM |
| 5326 | Bug     | Resolved | Normal    | 2.2rc2 - upgrade config file bug workaround moves KeplerData/modules to KeplerData/modules.old instead of just configuration file dirs | David Welker     | 05/24/2011 04:36 PM |
| 5328 | Bug     | Resolved | Normal    | 2.2rc2 - standalone module manager won't start                                                                                         | David Welker     | 02/28/2011 09:25 PM |
| 5325 | Bug     | Resolved | Normal    | 2.2rc2 - documentation problems                                                                                                        | David Welker     | 02/28/2011 09:25 PM |
| 5318 | Bug     | Resolved | Normal    | 2.2.0 release testing                                                                                                                  | David Welker     | 05/24/2011 05:05 PM |
| 5311 | Bug     | Resolved | Normal    | 2.2.0rc1 - remote data sources don't work                                                                                              | Jing Tao         | 02/17/2011 03:11 PM |
| 5309 | Bug     | Resolved | Normal    | 2.2.0rc1 - Preferences and Components Search (configuration) issue                                                                     | David Welker     | 02/15/2011 10:32 PM |
| 5310 | Bug     | Resolved | Normal    | 2.2.0rc1 - Documentation link problems                                                                                                 | David Welker     | 02/24/2011 02:11 PM |
