<b>Semtools</b>	<b>Semtools</b>																								
<b>Semtools - metacat-plugin-0.9.0</b>	<b>metacat-plugin-0.9.0 0%</b>																								
Context-based semantic query	<b>New 0%</b>																								
Integrate semantic query with keyword (...)	<b>New 0%</b>																								
Verify "same observation as" query criteria	<b>New 0%</b>																								
Compound query conditions	<b>New 0%</b>																								
AnnotationManager: query performance	<b>New 0%</b>																								
<b>Semtools - morpho-plugin-0.9.0</b>	<b>morpho-plugin-0.9.0 0%</b>																								
Mark data package as changed when Annotation (...)	<b>New 0%</b>																								
Save annotations to network	<b>New 0%</b>																								
Load Annotations from Metacat in Annotation (...)	<b>New 0%</b>																								
Decide permission policy for Annotations (...)	<b>New 0%</b>																								
Annotation cell selection also selects (...)	<b>New 0%</b>																								
Integrate Context Annotation tab with (...)	<b>New 0%</b>																								
Reorder the Full Annotation rows to (...)	<b>New 0%</b>																								
Ontology Browser as a non-modal palette	<b>New 0%</b>																								
Lazily load semtools plugin	<b>New 0%</b>																								
Look-ahead search freezes	<b>New 0%</b>																								
Measurement templates	<b>New 0%</b>																								
Loading ontology from local file does (...)	<b>New 0%</b>																								
Use 'semquery' within Morpho	<b>New 0%</b>																								
<b>Semtools - metacat-plugin-1.0.0</b>	<b>metacat-plugin-1.0.0 0%</b>																								
Design/implement semantic search UI	<b>New 0%</b>																								
Filter on Characteristic	<b>New 0%</b>																								
Filter on Person	<b>New 0%</b>																								
<b>Semtools - oboe-1.1.0</b>	<b>oboe-1.1.0 0%</b>																								
oboe-core: ensure new characteristic (...)	<b>New 0%</b>																								
oboe-unit: create new oboe-unit for (...)	<b>New 0%</b>																								

oboe: develop a high-level "getting (...)	New 0%
oboe: create an oboe-examples ontology (...)	New 0%
<b>Semtools - sms-core-1.0.0</b>	<b>sms-core-1.0.0 0%</b>
Create domain ontology (measurement (...)	New 0%
Design/implement storage system	New 0%
EML:DataTable:Annotation cardinality	New 0%
OntologyManager: registration and archiving	New 0%
Define annotation model	New 0%
Annotation model diagrams	In Progress 0%
Create annotation specification (...)	New 0%
Specify Annotation serialization (...)	New 0%
Review annotation model with partners	New 0%
Design whole-system semantic architecture	New 0%
Lifecycle design diagram	New 0%
System component collaboration (...)	New 0%
Define APIs for all component interfaces	New 0%
Define message types for all APIs	New 0%
Design/implement annotation generation (...)	New 0%
Annotation in REML package	New 0%
Integrate SemantEco Annotator from (...)	New 0%
Integrate Domeo annotator (perhaps)	New 0%
<b>Semtools - sms-index-1.0.0</b>	<b>sms-index-1.0.0 0%</b>
Design/implement semantic indexing system	In Progress 0%
Create JUnit tests for semantic query (...)	New 0%
Design/implement semantic query service (...)	In Progress 0%
Choose query language	New 0%
