Semtools	Semtools																												
Semtools - metacat-plugin-0.9.0	metacat-plugin-0.9.0 0%																												
Context-based semantic query	New 0%																												
Integrate semantic query with keyword (...)	New 0%																												
Verify "same observation as" query criteria	New 0%																												
Compound query conditions	New 0%																												
AnnotationManager: query performance	New 0%																												
Semtools - morpho-plugin-0.9.0	morpho-plugin-0.9.0 0%																												
Mark data package as changed when Annotation (...)	New 0%																												
Save annotations to network	New 0%																												
Load Annotations from Metacat in Annotation (...)	New 0%																												
Decide permission policy for Annotations (...)	New 0%																												
Annotation cell selection also selects (...)	New 0%																												
Integrate Context Annotation tab with (...)	New 0%																												
Reorder the Full Annotation rows to (...)	New 0%																												
Ontology Browser as a non-modal palette	New 0%																												
Lazily load semtools plugin	New 0%																												
Look-ahead search freezes	New 0%																												
Measurement templates	New 0%																												
Loading ontology from local file does (...)	New 0%																												
Use 'semquery' within Morpho	New 0%																												
Semtools - metacat-plugin-1.0.0	metacat-plugin-1.0.0 0%																												
Design/implement semantic search UI	New 0%																												
Filter on Characteristic	New 0%																												
Filter on Person	New 0%																												
Semtools - oboe-1.1.0	oboe-1.1.0 0%																												
oboe-core: ensure new characteristic (...)	New 0%																												
oboe-unit: create new oboe-unit for (...)	New 0%																												

oboe: develop a high-level "getting (...)	New 0%
oboe: create an oboe-examples ontology (...)	New 0%
Semtools - sms-core-1.0.0	sms-core-1.0.0 0%
Create domain ontology (measurement (...)	New 0%
Design/implement storage system	New 0%
EML:DataTable:Annotation cardinality	New 0%
OntologyManager: registration and archiving	New 0%
Define annotation model	New 0%
Annotation model diagrams	In Progress 0%
Create annotation specification (...)	New 0%
Specify Annotation serialization (...)	New 0%
Review annotation model with partners	New 0%
Design whole-system semantic architecture	New 0%
Lifecycle design diagram	New 0%
System component collaboration (...)	New 0%
Define APIs for all component interfaces	New 0%
Define message types for all APIs	New 0%
Design/implement annotation generation (...)	New 0%
Annotation in REML package	New 0%
Integrate SemantEco Annotator from (...)	New 0%
Integrate Domeo annotator (perhaps)	New 0%
Semtools - sms-index-1.0.0	sms-index-1.0.0 0%
Design/implement semantic indexing system	In Progress 0%
Create JUnit tests for semantic query (...)	New 0%
Design/implement semantic query service (...)	In Progress 0%
Choose query language	New 0%
