<b>Semtools</b>																									
Semtools - metacat-plugin-0.9.0																									
Context-based semantic query																									
Integrate semantic query with keyword (...)																									
Verify "same observation as" query criteria																									
Compound query conditions																									
AnnotationManager: query performance																									
Semtools - morpho-plugin-0.9.0																									
Mark data package as changed when Annotation (...)																									
Save annotations to network																									
Load Annotations from Metacat in Annotation (...)																									
Decide permission policy for Annotations (...)																									
Annotation cell selection also selects (...)																									
Integrate Context Annotation tab with (...)																									
Reorder the Full Annotation rows to (...)																									
Ontology Browser as a non-modal palette																									
Lazily load semtools plugin																									
Look-ahead search freezes																									
Measurement templates																									
Loading ontology from local file does (...)																									
Use 'semquery' within Morpho																									
Semtools - metacat-plugin-1.0.0																									
Design/implement semantic search UI																									
Filter on Characteristic																									
Filter on Person																									
Semtools - oboe-1.1.0																									
oboe-core: ensure new characteristic (...)																									
oboe-unit: create new oboe-unit for (...)																									

<b>oboe: develop a high-level "getting (...)</b>	New 0%
<b>oboe: create an oboe-examples ontology (...)</b>	New 0%
<b>Semtools - sms-core-1.0.0</b>	<b>sms-core-1.0.0 0%</b>
<b>Create domain ontology (measurement (...)</b>	New 0%
<b>Design/implement storage system</b>	New 0%
<b>EML:DataTable:Annotation cardinality</b>	New 0%
<b>OntologyManager: registration and archiving</b>	New 0%
<b>Define annotation model</b>	New 0%
<b>Annotation model diagrams</b>	In Progress 0%
<b>Create annotation specification (...)</b>	New 0%
<b>Specify Annotation serialization (...)</b>	New 0%
<b>Review annotation model with partners</b>	New 0%
<b>Design whole-system semantic architecture</b>	New 0%
<b>Lifecycle design diagram</b>	New 0%
<b>System component collaboration (...)</b>	New 0%
<b>Define APIs for all component interfaces</b>	New 0%
<b>Define message types for all APIs</b>	New 0%
<b>Design/implement annotation generation (...)</b>	New 0%
<b>Annotation in REML package</b>	New 0%
<b>Integrate SemantEco Annotator from (...)</b>	New 0%
<b>Integrate Domeo annotator (perhaps)</b>	New 0%
<b>Semtools - sms-index-1.0.0</b>	<b>sms-index-1.0.0 0%</b>
<b>Design/implement semantic indexing system</b>	In Progress 0%
<b>Create JUnit tests for semantic query (...)</b>	New 0%
<b>Design/implement semantic query service (...)</b>	In Progress 0%
<b>Choose query language</b>	New 0%
